SKILLS

Frontend: Angular, React, TypeScript

Backend: .NET Core, Node.js, NestJS, Spring Boot

Cloud & DevOps: Azure, AWS, Jenkins

Databases: SQL Server, PostgreSQL, MySQL

LANGUAGES

- English (B2)
- Spanish (Native)

KEY ACHIEVEMENTS

- Reduced response times by 15% through SQL optimization
- Deployed applications to Azure/AWS using automated CI/CD
- Maintained high code quality through clean architecture principles

PROFILE

Full Stack Systems Engineer with solid experience in Angular, .NET Core, and cloud platforms (Azure, AWS). Focused on building scalable, secure applications using clean architecture and CI/CD. I enjoy collaborating in agile teams and continuously improving software quality and performance.

WORK EXPERIENCE

Mid-Senior Full Stack Developer - SpartanSoft JAN 2025 - CURRENT

- Improved system performance by 15% through SQL query optimization.
- Developed scalable apps using Angular, .NET Core, and SQL Server.
- Deployed cloud-ready solutions on Azure and AWS using CI/CD.

Lab Assistant – Universidad Mayor de San Simón JUN 2024 - DEC 2024

- Led interns in building web solutions with Angular, React, Spring Boot.
- Provided C# .NET training to students and professionals.

Software Engineer - SpartanSoft JUL 2023 - MAY 2024

- Developed enterprise solutions with Angular, NestJS, and SQL Server.
- Built APIs with clean architecture and Docker-based deployments.

Software Engineering Trainee - Nice CX-One NOV 2022 - JUL2023

- Participated in secure coding practices using Veracode, BlackDuck, and OWASP Top 10 standards.
- Worked within a microservices environment using Springboot and Angular

Full Stack Developer - Freelance AUG 2021 - OCT 2022

- Handled full project lifecycle: requirements, development, deployment, and post-release support for clients in logistics and retail.
- Maintained direct client communication, improving delivery satisfaction.

Intern + Full Stack Developer AUG 2018 - JUN 2021

- Started as intern and transitioned into full-time development role.
- Developed UI with Angular Material, implemented JWT authentication.
- Performed integration testing and API development in .NET Core.

EDUCATION

B.S. in Systems Engineering – Universidad Mayor de San Simón 2023

Diploma in Software Quality Engineering – Universidad Mayor de San Simón 2024

Full Stack Web Developer Bootcamp – Enyoi 2024
